Who is J C? (Part 1)

1. The IG report reveals that an unidentified DOJ lawyer and Mueller team attorney sent out an anti-trump e-mail with the French expression "Viva le Resistance."

'VIVA LE RESISTANCE': MUELLER TEAM ATTORNEY SENT ANTI-TRUMP TEXTS

Chuck Ross | Reporter 6:52 PM 06/14/2018

An FBI attorney who worked on the special counsel's Russia investigation until earlier this year sent anti-Trump text messages to a colleague, including one exclaiming: "Viva le Resistance."

The attorney's comments are revealed in a Justice Department inspector general's report released on Thursday.

The lawyer is not identified, but he worked on the Hillary Clinton email investigation and was the FBI's lead attorney on the investigation into Russian election interference. He was assigned to special counsel Robert Mueller's investigation soon after it began in May 2017 and left in late February of this year after some of his private messages were shared with the special counsel.

2. This prompts Congressman Nunes to send out a text asking for the identity of this DOJ lawyer.

Devin Nunes
@DevinNunes

Can anyone tell me who the DOJ lawyer is that speaks French via text in the IG report? This will save a lot of time in the hearings this week so my colleagues won't have to ask this question...

The Man Who Engineered the Spying

Most interesting is John Carlin the once-assistant attorney general in charge of the DoJ National Security Division, an agency division that operates with no accountability or oversight.

The National Security Division (NSD) inside the DOJ is where all of the collaboration on Russia-Trump-dossier appears to have taken place. The NSD is a sub-division within the DOJ similar to the Counterintelligence Division within the FBI.

White House typo spotted in Trump's executive order on family 'seperation'

William Cummings, USA TODAY Published 7:59 p.m. ET June 20, 2018

In the first version of the order released by the White House, the word separation is misspelled in the document's title as "seperation." The typo was quickly fixed but screenshots of the gaffe appeared on social media even quicker.

How many coincidences until it's mathematically impossible?
